MITRATECH

CONTRACTROOM

The future of agreement

Legal, sales, and purchasing teams are closing agreements 10x faster, with 100% control, and deep insight.

Mitratech ContractRoom

Unparalleled insight into compliance obligations and regulatory management

ContractRoom is the world's smartest contract lifecycle management platform helping transform contracting operations enterprise-wide.

Using a combination of large data sets and AI techniques, ContractRoom provides insights that help you simplify the contracting process and make informed decisions. It has transformed the contracting operations for multiple Fortune 500 clients, with over 50,000 users, more than 300,000 contracts, and millions of data points under management.

Close agreements 10X faster
Discover how unique negotiation, deeply automated document assembly, and AI-enhanced workflow management get all parties to "yes" 10x faster.

With complete control
Learn how end-to-end digitized processes, rules-based routing and approvals, and fully digitized content give you control you've never had before. Goodbye offline "black holes." Hello, effortless compliance!

And deep insight
Find out how an intelligent contract repository, deep search, and powerful contract analytics simplify obligation management and deliver real-time insights.

Why ContractRoom?

ContractRoom is the only system that can automate the entire contract process end-to-end, with a scalable architecture for enterprise-wide adoption. Uniquely, the system captures transactional, behavioral and content data that provide insights into your contracting process and decision-making like never before.

How it works

Automate a true end-to-end CLM process. (right)

Pre-contract

Request Management | Template Management | Document Assembly | Self-service Drafting

In-contracting

Real-Time Collaboration | Workflow Management | Counterparty On-boarding | e-Signature & ink execution

Post-contract

Contract Repository | Contract Management | Obligation Management | Reporting & Insights

Meaningful differentiation

What sets ContractRoom apart?

- **Self-service**
  Provide an intuitive portal for self-service contracts.

- **Requesting**
  First to provide intelligent queues for routing to the drafting team.

- **Drafting**
  First to provide 100% automation for assembly and workflows.

- **Multi-party negotiation**
  First to streamline agreement-building process among negotiating teams.

- **Editing**
  First to fully streamline text redlining with broad controls and a complete history of every change.

- **Workflow**
  First to provide automated conversion of contract commitments into tasks.

- **Deep insights**
  First to capture transactional content and behavioral data of all activity before signature.

- **Compliance**
  First to benchmark all pre-contract and post-contract activities for buyers and sellers.
